Walk between buildings and continue downhill with yellow and yellow and white flashes.	250m, 4min

## **COSTA BLANCA MOUNTAIN WALKERS - WALK DESCRIPTION**

<p>Follow the GR11 indications slightly left and still on a track which crosses a field and then turns left through a fence to the left and descends in zigzags to cross a stream bed at the bottom.</p> <p>Arrive at a track junction where you go ahead through a gate with a finger post and cross the field diagonally and slightly downhill to arrive at a second gate through which you turn half left to walk down a grassy ramp and cross above a ditch.</p>	<p>3.5km, 41min</p>
<p>Follow the path into trees (box, yew and oak) till you meet a track junction just beyond an abandoned building where you turn right and gradually drop to meet the road.</p>	<p>4.2km, 50min</p>
<p>Cross this to the left across a parking area with benches and descend on a way marked footpath steeply downhill.</p>	
<p>After a considerable descent arrive at Can Serra, (and Casa Etxalde) a sprawling set of accommodation and walk directly ahead through this and onto a track.</p>	<p>5km, 1hr 3min</p>
<p>Climb up this track until you reach a bend with a finger post where you continue ahead descending across a field. (Views ahead of Coma Negra a significant peak)</p>	<p>5.6km, 1hr 12min</p>
<p>Quickly double back to the right at a post and reach a track which you descend.</p>	
<p>When you meet a bigger track turn right downhill. Walk down to a junction where you swing left at a finger post and then turn right at signs to descend, soon on a footpath at a finger post - to a collection of farm houses.</p>	<p>7km, 1hr 31min</p>
<p>Here there is a cross roads where you must go effectively straight down after negotiating the right and left. This cobbled lane leads downhill and you cross a stream and rise on the other side until you start descending on a partially cobbled footpath.</p>	
<p>Pass a small ruined casita and then more substantial ruined farmhouse. Beyond this drop down steadily to reach a road where you continue ahead a short distance to find a footpath leaving on the right at a finger post.</p>	<p>8.7km, 1hr 54min</p>
<p>Cross a delightful bridge at the edge of a deep gorge and on the far side work back uphill. Cross another bridge to the right and then work your way up to eventually meet the road.</p>	<p>9.9km, 2hr 13min</p>
<p>(There is a slightly pointless path opposite this point which climbs above the road for a short distance)</p>	
<p>Better simply to turn left along the road and a little way down find a finger post and pate down to the left.</p>	<p>10.4km, 2hr 17min</p>
<p>Take this very rocky route to emerge on a rough area immediately opposite the village car park. Turn left down into the village.</p>
